Education

Bachelor of Technology in Computer Science

Dr. Kiran & Pallavi Patel Global University

Expected 2026

CGPA: 8.6/10

- **Relevant Coursework:** Data Structures, Algorithms, OOPs, AI/ML

Higher Secondary (12th Grade - Science Stream)

Parth Institute, Vadodara

2022

Marks: 50%

Technical Skills

Machine Learning & AI: Python, Matplotlib , Pandas , Scikit Learn, Keras, Generative AI

Languages: Python, Java script , JAVA , C++

Frontend: React.js, React Native, HTML5, CSS3, JavaScript, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, RESTful APIs, JWT Authentication

Tools: Git, VS Code, Postman

Projects

OMNIDOC AI Multimodal System

- Developed a multimodal AI platform capable of processing **6+ data formats** — text, PDFs, Word files, images, code, and videos
- Integrated **Gemini 2.0 Pro** API and Transformer-based LLM models, enhancing Q&A accuracy and content summarization **quality by 22 Percentages** based on benchmark evaluation.
- Built custom extraction utilities for each file type with **Streamlit web interface**

React Native Restaurant App

- Developed a full-stack cross-platform restaurant ordering app using React Native (front-end) and Node.js + MongoDB (back-end), supporting real-time order management for both users and admins.
- Engineered RESTful APIs in Node.js to handle menu retrieval, order placement, payments, and user authentication, **reducing response latency by 35 Percentages** compared to baseline prototypes.
- Designed a modern and responsive UI in React Native with reusable components for menu, cart, checkout, and order tracking, improving user experience and **engagement by +25 Percentages**.
- Configured CocoaPods (iOS) and Gradle (Android) builds, decreasing cross-platform build **time by 40 Percentages**.

Certifications

- Deloitte Data Analytics
- AWS Generative AI with Diffusion Models
- Code Unnati Program — Edunate Foundation
- AWS Foundation of Prompt Engineering
- Introduction to Applied Data Science with Python

Key Strengths

- Full-stack development capability
- Cross-platform mobile development expertise
- Designed and deployed a multimodal AI pipeline for OMNIDOC-AI with 95 Percentages uptime and multi-format data handling.
- API integration
